NEWBURGH'S CITY MANAGER TELLS ROTARIANS HOW HE DOES THINGS

Collections and Payments Save Interest—No Politics in Street Force and Mayor is Mostly for Hand-shaking Purposes—Snow Removal Cost \$6,000—How He Got Better Lighting System.

Administration of a city's business is a city manager was explained to a group of Rotarians and their wives at a chicken dinner at the Ritz Hotel, Newburgh, on Wednesday evening by W. J. McKay, city manager of Newburgh. About 80 attended the meeting. Mr. McKay's address was as follows:

It is indeed a pleasure to be permitted to come from a city that is settled in 1709 to speak to the Rotarians of a city that was settled in 1814. President Johnson was quoted in an August 7th when he was quoted in regard to our new government "that no doubt the Rotarian Club of Newburgh could be the sister cities of the Hudson River cities." Mr. McKay's address was as follows:

ANOTHER FIRE AT HAVLIN PLANT

This Morning About 7:40—Fire Started in Paint Shop on Second Floor—One Car Badly Burned And Another Damaged by Smoke—Cause Unknown—Loss Covered by Insurance.

This morning about 7:40, for the second time within the past year, the building in which is located the Havlin Auto Top Company caught fire. An alarm of fire was rung in from Box 61, to which the firemen responded. The fire damaged the paint shop on the second floor and burned one car badly while another one was damaged by smoke. The cause is unknown. The entire loss is covered by insurance.

When the firemen arrived they found that the fire had started on the second floor where the paint shop is located. This is the same place that the fire started the last time. Due to the fact that there is quite a supply of leather on this floor, the fire spread very quickly all over the city. The firemen quickly broke the windows on the second floor and directed the water into the paint shop. Within a half hour or forty minutes the fire was practically extinguished.

There were quite a number of cars stored on the top floor waiting repairs. The Studebaker seven passenger car of Earl Finch, who resides at 476 Broadway, was badly damaged by the fire and smoke. The car of William Van Valkenburgh, who conducts an insurance agency at 518 Broadway, was also quite badly damaged by smoke. The amount of the loss has not been ascertained.

The paint shop in which the fire started is operated by Louis A. Crosby, who is not connected with the Havlin Company.

CHILD RAN IN FRONT OF CAR

Four Year Old Loretta Brown Has Fractured Skull and Other Injuries As Result of Being Run Over by Lawatch's Automobile.

The condition of Loretta Brown, the four year old girl who was struck by an automobile Wednesday night at the corner of East Union and Ann streets, was reported as being somewhat better at the Kingston City Hospital this morning by Dr. Snyder, the attending physician. Drs. Snyder and Ingalls have taken an X-ray picture which shows that the girl has a fractured hip bone, a fractured skull and severe lacerations about the body.

The accident happened about 5:10 Wednesday evening. The little girl, who had been across the street to get something at a store, ran out from behind a covered truck, which was standing at the curb and which belonged to a man by the name of Mones, at the corner of East Union and Ann streets. Anthony Lawatch was driving an Overland sedan near the corner of Ann street and as he started to go past the truck the little girl ran in front of his car. She hit his power and stopped at once. The girl was found under the car and was bleeding profusely from her wounds. She was taken to the Kingston City Hospital, where she was examined by Dr. Snyder and an X-ray taken. The little girl is the daughter of Mr. and Mrs. Adam Brown of 14 East Union street.

The police are investigating the accident and from what they can determine so far Mr. Lawatch was going at a very low rate of speed. This is Lawatch's statement and it is borne out both by the testimony of witnesses and by the fact that the car stopped within half its length after the accident.

MIDGETS NOW CLAIM JUNIOR CHAMPIONSHIP

The Hasbrouck Park Midgets defeated the Clermonts at Hasbrouck Park on Monday by a 5-3 score. The game, which was scheduled to go seven innings, was called at the end of the sixth because of the fact that the Clermonts left the field on account of a decision by Umpire Joe Gardski. The Hasbrouck Park Midgets now claim the junior championship of the city and issue a challenge to any other junior team.

Jailed For Assault

Julius Viterbis was arrested on a warrant issued by Police Justice McKenzie of Port Jervis Wednesday evening charging him with assault. In the third degree in striking Kaswell Shapiro in the face with his fist. Viterbis was brought to jail by a constable at two o'clock this morning to be held for a trial before Justice McKenzie.

Soft Coal Miners Threaten "Vacation" To Aid in Strike

Say They Will Not Aid in Supplying Bituminous Coal in the Event That the Anthracite Miners Go On Strike September 1 to Enforce Their Demands.

By Telegram to The Freeman. Atlantic City, N. J., Aug. 23.—Miners of the soft coal fields of Pennsylvania today pledged their aid to the hard coal miners in the event the latter go out on strike September 1.

James Marks, vice-president of the Central Pennsylvania Bituminous Coal District, accompanied by five aides, arrived here this morning and held an extended conference with John L. Lewis, president of the United Mine Workers of America.

Marks, it was learned, told Lewis that President Coolidge would be disappointed if he thought the bituminous miners of the Pennsylvania would aid in flooding the country with fuel substitutes in the event of a strike in the anthracite field.

"The soft coal miners are here on a matter of internal policies," Lewis said. He refused to say what "internal policies" were meant.

Lewis denied the bituminous miners would stage a strike in sympathy with the hard coal miners.

"The bituminous miners have an iron bound contract and the United Mine Workers do not violate their contracts," Lewis said.

A member of Lewis's committee, here to negotiate a new contract with the anthracite operators, stated, however, that Marks had pledged his word "the miners of the soft coal fields in Pennsylvania would go vacationing in the event of a hard coal field strike."

Marks and Lewis conferred through the morning. When they had finished Lewis had "nothing to say."

Marks, it was learned, was called to Atlantic City by Lewis, in a telegram sent out last night following word from Washington that President Coolidge had ordered the governors of the "anthracite states" into a conference at New York for next Tuesday.

At noon today, Lewis said the union representatives will stay here "for a few days anyway." It is believed they are waiting for the government to take some step to bring about a resumption of the broken off conference.

Samuel D. Warringer, spokesman of the operators, announced he was "waiting flight."

"I still prefer to regard the breaking of the conference as a recess," said Warringer.

"If the operators invite us to resume the conference, we will do so on the assumption that the operators are prepared to make concessions in the matter of wages," said Lewis.

"Otherwise it would be foolish for them to ask us to resume negotiations."

QUOTATIONS AT PUBLIC MARKET

Following were the quotations at the public market this morning: Peaches, 60c to \$1.10 basket. Plums, \$1 to \$1.75 basket. Apples, 40 to 75c basket. Tomatoes, 50 to 60c basket. Sweet corn, \$1-\$1.10 per 100. Cabbage, \$6-\$7 per 100. Beets, 35c doz. Carrots, 35c doz. Crab apples, 40-75c basket. Green sage plums, \$1.85 basket.

KENOZA LAKE CLUB FISHERMEN BANQUET

The officers and members of the Kenosha Lake Club had an enjoyable time Wednesday evening at the club house, where they partook of a sumptuous banquet prepared and served by Mrs. Jerry Phillips, matron of the club and wife of the caretaker. Covers were laid for fifteen, those present being Delaney N. Matthews, Frank B. Matthews, William K. Harrison, George Burgevine, George Seaman, Dr. William Kemble, Dr. Robert P. Bayler, William Von Berg, Dr. Wright J. Smith, Edward Elmdorf, E. Burton To Bow, Carlton S. Preston, Elmer Eastwood, William Markie, John B. Cook. The banqueting fishermen returned before midnight, delighted with the function.

ONE DRUNK ARRAIGNED IN POLICE COURT TODAY

James McNulty was picked up by Officer Charles J. Murphy on Abert street, near Wurts, on Wednesday and lodged in the city jail on a charge of being drunk and unable to take care of himself. When arraigned before Judge Schirck in police court this morning he was fined \$5, which he paid.

George Prosser, who was arrested for parking his automobile by a fire hydrant on Wall street, between John and North Front streets, forfeited \$10 cash bail for non-appearance.

Want New County for Young

The Newburgh News says that Edward Young, "one of the best known and ablest men in Ulster county," received only 26 votes out of more than 200 for the designation for member of assembly in the recent county convention. The News thinks this is another reason why a new county should be formed. The official records show that Mr. Young received 8 out of 259 votes cast.

AIRPLANE FROM SAN FRANCISCO FLIES TO MINEOLA IN 28 HOURS

By Telegram to The Freeman. Mineola, Aug. 23.—The east-bound air mail plane, piloted by Paul F. Collins, landed at Hazelhurst Field at 12:22 p. m., eastern standard time. The plane left San Francisco yesterday at 8:26 a. m., eastern time, or 8:26 a. m., coast time.

The unofficial flying time from the coast was 27 hours and 56 minutes. Thus was achieved the aim of the postal service to bring mail from coast to coast in 28 hours.

The scheduled flying time for the flight was fixed at thirty hours and fifteen minutes in the shifting schedules that are working down to the 28 hour schedule. On this schedule, Collins was due at 2:41, eastern standard time.

BIGGEST LIGHT HERE TOMORROW

U. S. Army Recruiting Party With Billion Candlepower Searchlight of U. S. Army to Stop On Its Way From Ellenville to Plattsburg.

Some time tomorrow the biggest searchlight owned by the U. S. Army will be in Kingston. It is now in Ellenville, at the fair, with a recruiting party from the 62nd artillery regiment, from the Albany recruiting headquarters. The lens of the searchlight is five feet in diameter, the light is of one billion candlepower and throws a beam of light forty miles under favorable conditions. It has been shown nightly at Ellenville and at the Orange county fair at Middletown but doubtless the bright moonlight nights have caused it to be unnoticed here. The light is carried on a special Cadillac truck and the motor of the truck is hooked up to generate the current for the light when it is needed.

Tomorrow night the party will stay at Catskill and the light will be turned on there. It should be seen easily from Kingston.

The party is on its way to a fair at Plattsburg.

MANY WOES IN EUROPE

Laid to Gambling Mania. William Murrell Fisher of Woodstock, N. Y., who returned Wednesday on the steamship Kunesholm, told ship news reporters, says the New York Herald, this morning, that he found Europe gambling mad, with most of the population of England betting on the races and playing lotteries sanctioned by the governments. He lays many of Europe's ills to the gambling fever.

"Artistic endeavor is at a standstill and inspiration is dead," he said. "Young artists going abroad to study are returning home in disgust."

Bouton Marriage Dissolved

Supreme Court Justice Joseph Rosch has ordered, adjudged and decreed that the marriage of Estelle Bouton and Charles Bouton, on the application of the former, be dissolved on the ground of desertion by the latter. The parties were married in Ellenville on July 3, 1918. Clarence A. Hornbeck is attorney for Estelle Bouton.

ATTRACTIONS NOT ADVERTISED SURPRISE CROWDS AT COUNTY FAIR

Wild West Rodeo and State Troopers' Stunts Bring Those In Grandstand to Their Feet—Horse and Auto Races Friday—Midway More Colorful Than Ever.

Several entirely new features have been added to the Ellenville fair this year which have proved to be big drawing cards. At the last moment, and too late to advertise it, California Frank's rodeo was secured for afternoon and evening performances every day of the fair. This wild west riding and shooting team is one of the best in the country, having played at the Yankee stadium in New York city and in other large towns throughout the country. The rodeo is an exhibition of wild west riding, cattle roping and shooting. The team carries along with it a miniature comedian who can rope, ride, shoot and last but not least entertain in a way that keeps the grandstand in a roar. The rodeo is put on in between the races and also at night.

A night carnival is another feature which is putting the Ellenville fair on the map this year. Following the afternoon races the carnival features get into full swing and in the evening the rodeo and state troopers put on their riding act and the evening entertainment is brought to a close with fireworks.

Still another feature and one which has proved highly entertaining and instructive is the riding of members of Troop C, State Constabulary. This feature was secured through Colonel Chandler, head of the troopers, and is one of the best shows put on at the fair. Members of Troop C, mounted on some of the finest horses of the state, go through a mounted drill which brings forth a hearty hand from the people. The dash through a wall of fire by the troopers is a novel and highly interesting act. The horse and rider gallop through a mass of burning material.

Starting off with the regulation "monkey drill," the members of the troop go through some riding stunts which are designed to try the riding ability of the best horseman. A sample of rough riding, single, double and triple riding and a pyramid drill are all gone through in a manner which show the horseman's ship of the state trooper. The quarter mile running race in which a trooper with three mounts dashes down the track past the grandstand is a thriller. One foot on each outside horse and the third horse in the middle the participants can thundering down the track in a real honest to goodness race and the best man wins. There is considerable rivalry among the troopers who participate and this lends to the excitement. This riding demonstration is put on each day and evening by members of Troop C.

The races are good and a big card is on daily. Two running races were on the program for Wednesday which were to be real thrillers. One, a 54 mile dash running race had three entries and there was some real riding displayed. This race was won by Hot Muffin, owned by Mrs. C. H. Norton of Mineola and ridden by Hickey. Billy Glen was second, owner J. S. Braisted of Middletown, rider Lungton. Parisian was third, Louis Rose of Monticello owner, and Cook rider. The purse was \$75.

In the second running race there were four starters, one being ridden by a young woman, who finished third. No Trump, another of Hickey's horses, was first with Norton's horse, Betty B., owned by John Braisted of Middletown was second, Lancia rider, Tresenda owned by L. Loom of Monticello was third with Muller riding and Campbell, owned by J. Yankowitz of Monticello was fourth with Quiguan as rider. The race was especially interesting as the crowd was with the woman rider who proved to be one of the best riders but who came in third on account of a slower horse. The time of the 1/2 mile dash running race was 59 seconds.

Friday will be the big day of the fair when the automobile races are held. This is a big drawing card and the races this year will be better than ever on account of the large number of entries. There are two races of five miles each, one for Ford stock models and a free-for-all. There are fifteen entries in the races. This race will take place Friday afternoon at the conclusion of the horse races. Last season the automobile races were real thrills and some experienced drivers will compete this year. The purse in the races is of substantial amount and will bring out some fast driving and perhaps some spills and thrills.

On the race program Wednesday was a 2:24 trot or pace with nine entries originally but Roy York owned by Frank Osborne of Monticello and driven by Mr. York after winning the first heat dropped dead on the first turn at the start of the second heat. This caused some delay and the final result was not determined at sundown.

The 2:21 trot or pace was won by Queen Ortyho, A. Menz of Paterson, N. J., owner and driven by taking three straight heats. Bell Todd owned by Dr. Mabon of Kingston and driven by Roseacre took second money, finishing second in the first heat, fifth in the second and second in the third. Justice Bell owned by Charles Mabrey of Goshen was third. Purse \$300.

In the special race for home horses for a purse of \$150 there were five entries. Midnight, owned by John Burleson of Ellenville was

first; Copper Cliff owned by B. T. Clark of Woodbourne and driven by O. Blenis was second and Lizzie M., owned and driven by Simon Cushman of Napanoch was third. Time of heats 2:40; 2:34 1/2; 2:34 1/2.

The following were entered: Midnight, John Burleson, Ellenville (Hurlston) 1 1 1. Copper Cliff, B. T. Clark, Woodbourne (Hurlston) 3 5 2. Lizzie M., Simon Cushman, Napanoch (Cushman) 4 4 2. Rose Axworthy, H. C. Kuhlmann, Ellenville (Wynkoop) 3 3 4. Minnowaska, Dr. Oliver, High Falls (Lapp) 5 2 5.

There will be races each day of the fair. The automobile races taking place immediately after the last race Friday afternoon. One thing which deserves mention as at the fair is the exceptionally good poultry exhibit which this year is even better than in the past. There are also a number of dogs on exhibition up near the poultry tent. The fowl exhibit is large and exceptionally good and the stock exhibit is larger than last season. The sheep, cattle and swine on exhibition are much better than in the past.

The midway, always a big attraction at a county fair, is as large as last year and the shows are better. A number of the small shows which have been at Ellenville in the past are missing this season and the management of the fair has tried to make the midway this season well above par. That they have succeeded is shown by the clean shows and the large crowds which flock to the midway to win a doll, a blanket, a ham, or a good cigar.

Several exhibits of automobiles are made and the usual number of exhibits of wagons and farm implements are shown. Of course there are hot dogs, ice cold drinks and other things to satisfy the stomach. The 62nd artillery has an exhibit which attracts the attention of the young men. Included in the exhibit is a large 60 inch portable searchlight. The artillery boys are seeking recruits for that branch of the service.

Taken all in all the fair is above standard and Friday will see a record crowd, especially since that is the day of the automobile races as well as the last day of the fair.

CURRENT OFFERINGS AT THE THEATERS

Orpheum Reopens With Strong Vaudeville Bill. The Orpheum Theater opens for the season today with an exceptionally strong vaudeville bill, featuring Dainty June, one of the greatest juvenile artists on the American stage, including a cast of seven "kiddies." Also a first run Paramount picture, "The Exiles," with Bebe Daniels and Antonio Moreno.

Dorothy Day, the noted critic of the New York Morning Telegraph, in reviewing "Trifling With Honor," the Universal-Jewel production, which comes to Keeney's tonight, Friday and Saturday, wrote: "In the first place, this is a corking good picture. Secondly, it has been perfectly cast, with the result that a photoplay, not only human but extremely interesting and amusing, has been produced. There is pathos, there is comedy, and never a dull moment."

"The Woman Conquers," featuring Katherine Mac Donald, and a comedy, "Torchy Slips Out," is the program at the Auditorium tonight.

GOETHALS TO ATTEND GOVERNORS' CONFERENCE

By Telegram to The Freeman. Albany, Aug. 23.—Governor Smith today designated General George W. Goethals to represent New York state at next Tuesday's conference of governors in New York city. The conference was called by President Coolidge through J. R. Wadleigh, federal fuel administrator, to discuss the critical coal situation.

General Goethals acted as state coal administrator during the emergency last winter. The governor refused to comment today on the suggestion of Assemblyman George I. Jones of New York, that he call a special session of the state legislature to re-open last year's coal emergency legislation.

Hit Tree, Spared Cow. Litching during a shower in the afternoon, about two weeks ago struck a large cherry tree at the rear of the residence of Eugene Winne on Hurler avenue, splitting the tree from top to bottom and also splitting several of the limbs. A cow which was tethered under the tree and standing within three feet of the trunk was not affected in the least although the bark was torn off the tree, and gave her usual supply of milk in the evening when milked.

No Studebaker-U. & D. Game. The game scheduled between the Studebakers of East Kingston and the U. & D. R. team for Friday evening of this week at the Hasbrouck Park has been cancelled by Manager McNally. Injuries to players necessitated this action.

Daddy's Evening Fairy Tale

BARNYARD LADIES

"Quack, quack," said Mrs. Duck. "Shriek, shriek," yelled Mrs. Goose. "Cackle, cackle, cackle," said Mrs. Hen.

"Moo, moo, moo," said Mrs. Cow. "Ma-a-a," whined Nanny Goat. "We're thought out things for ourselves," said Mrs. Duck. "Quack, quack, we have done that."

"That is the truth, shriek, shriek," yelled Mrs. Goose. "You have said words of sense and honesty, cackle, cackle," said Mrs. Hen.

"To be sure, to be sure you have, moo, moo, moo," said Mrs. Cow. "You have, ma-a-a, you have," said Nanny Goat. "Ah, yes, you have!" "I was a charming young hen," said Mrs. Hen, and a charming Madame Hen I will always be. But I like my own name better than I do Mr. Rooster's name, and so I have always kept my own. Such has been the way all the hens have done."

"I am very sure," said Mrs. Duck. "But I, too, like my own name better than Mr. Drake's family name, and so I have kept my own name. And all the Ducks have done the same. The family name is so splendid a one."

"Just what I have done, shriek, shriek," said Mrs. Goose. "I told Mr. Gander that I would be his devoted mate, but that the name of Goose was so famous a name I could not give it up for the dull name of Gander."

"And I said the same to Billy," said Nanny Goat. "I told Billy that I loved the name of Billy, but that I wanted to be called Nanny all my days, and Billy shook his gaiter and said that he thought the idea was good."

"I'm so gentle and so placid, but I told Mr. Bull that I like my name of Cow so much. It has such a pleasant, lazy sound."

"Yes, I quack my genial, friendly way about the pond, but I did insist upon keeping my good old family name of Duck," said Mrs. Duck again.

"The Mr. Roosters crow and seem so conceited," said Mrs. Hen, "but they're not bossy. They said we should keep the good old barnyard Hen family name for ourselves."

"Ah," said Mrs. Duck, "we love our family names. There are people who

"I belong to the Good Old Cow Family."

have great books in which are the histories of their family names.

"Well, we don't need to have histories written about our names."

"Our names speak for themselves!"

"Yes, anyone can tell just by looking at me that I belong to the good old Duck family."

"And anyone can tell by looking at me that I belong to the good old Cow family," said Mrs. Cow.

"And anyone can tell just by looking at me that I belong to the good old Goose family," said Mrs. Goose.

"So can anyone tell by looking at me that I'm a member of the famous Nanny Goat family," said Mrs. Nanny Goat.

"Anyone can tell by looking at me that I belong to the good old Hen family," said Mrs. Hen.

"Ah, yes," she continued, "Mrs. Duck is right. Our names speak for themselves. We don't have books written about our names, nor do we have to trace back the family names in great books in libraries, as I've heard of some people doing."

"We're much more important than that. Yes, we're really important!"

"Really important, quack, quack," said Mrs. Duck.

"Really important, cackle, cackle," Mrs. Hen repeated.

"Really important, moo, moo," said Mrs. Cow.

"Really important, ma-a-a," said Nanny Goat.

"Really important, shriek, shriek," said Mrs. Goose.

"Really important, really important!" shouted all the barnyard animals together, and then they all sang this song:

We have names so fine
That are really a sign
Of the splendid families
To which we belong!

And now we sing
This song, fine-a-ling,
Of the splendid families
To which we belong.

The KITCHEN CABINET

(© 1923, Western Newspaper Union)

HOUSEHOLD EQUIPMENT

When furnishing a kitchen the two important elements which govern selection are necessity and convenience. A kitchen stove is a necessity (usually so considered). It may be a coal or wood range, a gas range, or a combination of both or an electric stove. However, the main thing in its selection is the model convenient to work at, appropriate to the means and size of the household.

Labor saving devices are a great convenience and the rule should be to give preference to that which is most convenient and most necessary, like a washing machine, rather than a cherry pitter which is used but a short season of the year. The washing machine saves bodily energy which is another important factor.

The question of space must be considered as well as the amount of care and expense needed to operate them. The housekeeper who saves herself, avoids brie-a-brac, carved furniture, polished surfaces which need frequent rubbing and elaborate linen which requires labor and skill to launder.

Another element of choice in equipment is that of beauty. A thing may be useful and beautiful. Since we must have dishes to eat from, why not have them as beautiful as possible? One may buy very cheap china which is artistic in color and design. Good looking ones are not necessarily expensive.

The more any article of furniture includes all three elements, necessity, convenience and beauty, the more efficiently will it serve its purpose. It is true we are not all gifted with good taste in choosing household equipment. We may have a good deal of taste, and have it all bad, but study, observation and common sense will help one in choosing.

The utensils used in the kitchen should be light, easily cared for and conveniently placed. The kitchen sink and table, stove and cupboards should be so arranged to save the steps of the housekeeper. A poorly arranged kitchen will add miles of walking in the preparation and clearing away of meals. Such details should be carefully considered. Many homes could be much improved by giving the arrangement a little thought.

Kerhonkson, Aug. 23.—The Reformed Church supper and fair was largely attended. They cleared \$325.

There will be services in the M. E. Church on Sunday, August 26, morning and evening.

Mr. and Mrs. W. Wilkison are spending some time with their daughter at Bloomfield, N. J.

Mr. and Mrs. Eddie McCabe have returned home to Bayonne after spending a week with his aunt, Mrs. M. Cristiana.

Mrs. Ruby Davis has returned home to Washington after spending three weeks with her aunt, Mrs. William Addis.

Several from here attended the M. Book picnic.

Mrs. Charles Stokes and daughter are in Boston visiting friends.

Mr. and Mrs. Clarence Cross and daughters of Kingston spent the week end with Mr. and Mrs. Derrick from at Turkey Hill.

Mr. and Mrs. Eddie McCabe and Ruby Davis and Mrs. Christina called on Mrs. James Smith at Wawarsing on Saturday afternoon.

Mrs. L. McConnell is entertaining her brother, Mr. Munson, from New York.

Prayer in a mine. Daily prayer services are held in the mines of the Valley Coal company, near Duquoin, Ill. There each morning, before the men go to work, a short prayer service is held at the bottom of the shaft, while the miners stand reverently with uncovered heads. The miners themselves conduct the prayer service, sometimes as many as six of them taking part.—Exchange.

FRIGIDAIRE

Just think of it, we can keep milk sweet in the Frigidaire for 12 days.

Read what Mr. Porter says.

John R. Porter, M. D., Director of Rockford Laboratories for Medical Research, Rockford, Ill., says:

"Eighteen-half pint bottles of milk from the same run were placed in the Frigidaire. Each day a bottle was removed for analysis. Bacteria were made for acidity and bacteria count."

"For the first seven days, the bacteria count remained stationary. Then on the ninth day there was a sharp reduction in the count. The milk was not spoiled until the twelfth day. At all times until the last day the milk was sweet and of excellent taste. The constant low temperature makes the growth of bacteria very slow, in fact it helps in killing certain types of bacteria often found in milk."

IN THE PUBLIC EYE

WE are equipped with a special knowledge of optometry. We can answer your eyesight cry for help. We will do more than to give you a simple test to discover if you are suffering from far sightedness or from myopia (near sightedness), we will look back into the inner recesses of your eyes and discover their exact defects. We will prescribe glasses for you that will bring back to you the blurring of day vision.

Sleeveless Gowns Welcomed Fashion

Comfort Is Chief Attraction; Graceful Shoulder Lines.

Everybody knows how it happened, but the reason sleeves have refused to stay in the cast-off garments of the afternoon gown, declares a columnist in the Detroit News, is that they have started as a feature of the modish gowns and in the old adage that "a man is as good as dead as he wears a gown" the company he keeps, so to speak, is the sleeve. It is the one distinguishing feature of the gown, and it is the one which every woman for the first time, since the advent of the sleeveless gown, has had to give up. The sleeve, following the design of the blouse, has the plain band at the bottom and up the sides, bordering a panel of the batik silk. In this gown the plain band drops low on the shoulder, covering the extreme upper part of the arm. But sleeves—there are none.

Plain fall silk is banded with plain material in contrasting color, the fastening at the girdle carrying the Greek key design, and over the left hip ribbon, tied in a careless bow. Extremely simple is this frock, yet it expresses style in its every line. Here the shoulder seam is long, forming a little cap at the top of the arm.

Work for Vacation Days. Vacation days need not necessarily be idle days. Many a woman prefers to have some bit of sewing or knitting to occupy her fingers during those afternoons when the porch seems the only livable spot.

There are many smart accessories now, easily made, that not only furnish up the summer frocks and give style to the organdies or crepes that are losing their freshness, but also afford pleasant summer pastime.

Fancy bandeaux for the hair, composed of ribbon, flowers and perky bows require only a few stitches and they are ever so attractive.

The craze for bracelets has revived the old fashion of black velvet bands for the wrist above the elbow with trimmings of fancy buckles or clusters of flowers.

One New York debutante has popularized the fad of wearing an inch-wide velvet band tightly about each wrist, fastened with a pink satin rose. She wears these with sleeveless frocks and the effect is charming.

Another fad is for corsages, worn directly in the front, made of cascades of flowers and colored ribbons, almost resembling the bridal shower bouquet.

The matching jacket and hat of gay cretonne is a very smart accessory to any costume, and if one makes the coat sleeveless, the question of fit is greatly modified.

Make Hand-Painted Hats. Hand-painted hats are very smart and easy to make. Simply buy a white or colored felt and, with a small water color brush and a little oil paint or dye, transpose thereon your favorite flowers. If you prefer conventional designs, stick to angles and lines. To show your interest in the recent Egyptian excavations, you can copy an Egyptian motif.

If you are afraid of your freehand efforts, stencils will make the work much simpler. You can make your stencils or buy them.

Slipper buckles are made of lace and ribbon arranged in a rosette fashion about clusters of flowers or buckles set with brilliants. Beaded stockings are quite a fad and are easily made. Steel heads are very effective as well as colors to match the frocks.

Dame Fashion is well equipped to furnish work for idle hands.

Simple Light Changes. When a different lighting scheme is desired by the hostess for her party, it is not necessary for her to change the expensive shades of her floor and other lamps. A new colored glass cover is purchasable at home furnishing stores and is obtainable in any hue or tint preferred. It covers the bulb or bulbs of the lamp—Milwaukee Sentinel.

looking arm has a chance to show its points of beauty on nearly all occasions—while, naturally, the arm less attractive isn't so generally inclined to display.

Chiffon Popular. Delightfully graceful and cool-looking are the chiffon models over slips of silk, the chiffon overdress trimmed in self material with cascading bands down the side. One particularly beautiful gown of this kind in delicate yet vivid blue has for its only trimming a beaded girdle at the low waistline, the beads of the same color combined with crystal and iridescent hues. It was the one touch of brightness that finished the gown.

Batik silks, designed for sports wear, are combined with plain silk of matching shade, sans sleeves, of course, the long batik overblouse plainly banded and caught loosely at the hip in a few straight gathers. The skirt, following the design of the blouse, has the plain band at the bottom and up the sides, bordering a

N. Y. CENTRAL TELLS OF BUSINESS

G. N. Wood, local freight agent for the New York Central Lines, has received some very interesting facts relative to freight and railroad conditions on the Central system. These facts as sent out by the division freight agent show that since federal control the New York Central Lines have purchased 565 locomotives, 562 passenger train cars (287 cars to be delivered), and 41,890 freight cars (8,841 cars to be delivered) the total number of freight cars owned being 265,215, or 11.4 per cent of the total ownership of the country.

The matter of keeping the rolling stock of a railroad system in usable condition is one of the big problems. At the time that the "Transportation Program for 1923" was adopted by the railway executives, there were 23,865 freight cars requiring repairs on the Central lines (April 1). This was reduced to 21,571 had order cars on June 15. On April 1, the total number of railroad owned freight cars located on rails of the New York Central Lines was 96.2 per cent of the number of cars owned by the lines and on June 15, this was reduced to 92.3 per cent in spite of a very heavy volume of traffic which was handled during this period.

On April 1, 1,191 locomotives required repairs compared with 1,118 which required repairs on June 1. May of the present year was a record month for traffic handled by the Central system when 419,240 cars of revenue freight were loaded at stations and 478,275 loads received from connections, which includes traffic interchanged between the respective New York Central Lines, or a total of 897,515 cars loaded and received from connections. This was some 4 per cent greater than April, 1922, and 40 per cent above May, 1921, and 34 per cent better than May, 1920. The total number of cars loaded and received from connections for the first five months of 1923 exceeded the amount for the previous year's first five months by 35 per cent.

The average turn around time per car required to complete the movement per car during April, 1923, was 8.56 days as compared with 8.1 days for May, 1922. The miles per day during May, 1923, averaged 29.2 compared with 21.5 miles daily for May, 1922, 20.1 for May, 1921, 21.0 for May, 1920, and 23.4 for April, 1923.

More than a total of 21,224 loads of automobiles were loaded at stations on the New York Central Lines during May, 1923, which is the maximum loading for any month and for the months of January to May, inclusive, a total of 94,560 car-loads were loaded.

During the present lake coal season to the end of May, 1,198,983 tons of lake coal have been dumped by the New York Central Lines at Ashabula and Toledo. This is 24.2 per cent of the total dumped by all roads.

SPENCER'S FALL TERM TO BEGIN SEPTEMBER 1

The Spencer's Business School, Wall and John streets, has recently received a letter from the United States Civil Service Commission which shows that there is a big demand for stenographers and typists in the different departments of the government. The commission desires Spencer's School to encourage its graduates to prepare for civil service positions offered by the government. Starting salaries are \$1,000 to \$1,200 a year, plus the increased amount by congress of \$20 a month. Higher salaried positions are filled through promotion.

Both young men and young women are wanted in the United States government service, and as Spencer's School makes a specialty of preparing young people for government positions, prospective pupils are invited to join the new classes now forming. The Civil Service preparation at Spencer's has always been a strong feature of the school, and scores of bright young people have been employed in government service. The fall term will start on Tuesday, September 4th.

Dissolve—use enough—soak
These are the simple directions

Just pour Rinso into a saucepan and add boiling water. It dissolves instantly and makes a good thick soapy solution.

Pour this Rinso solution into your tub half full of lukewarm water and whip up the suds. After you have put your clothes into the tub, the suds should stand up. If they do not you have not used enough Rinso.

Soak your clothes in these lasting suds for an hour or two—overnight, if you wish. This soaking takes the place of rubbing. It loosens the dirt so that it rinses right out. Only neck bands, cuff edges and seats and knees of children's play clothes will need a light rubbing with a little dry Rinso.

Get Rinso today—all grocery and department stores have it in the regular size and the big new package. Lever Bros. Co., Cambridge, Mass.

HOW TO ACT IN
THUNDERSTORM

Expert Gives Ten Rules to Follow
for Protection.

RUN TO COVER OR LIE DOWN

Get under cover if possible when a thunderstorm threatens. If this is not practicable, lie down. That is the advice which Alexander G. McArdle, director of the Blue Hill observatory in Milton, Mass., and professor of meteorology at Harvard university, gives in an explanation of the action of lightning prepared for the press. He gives what he describes as "ten good rules to help people take care of themselves."

"In a battle," says Professor McArdle, "100 bullets are fired for each soldier killed. It is something like this with lightning flashes. There are 100 discharges for every bolt of lightning that hits a person. Fortunately, too, of every 100 streaks of lightning about 90 are from cloud to cloud, or spill-over discharges of moderate electrical energy and are mostly horizontal, doing no damage whatever.

Straight Flashes Most Dangerous.
"About 10 flashes in 100 come vertically, that is, down to earth in a straight line. Some flashes come sideways and seem to be crooked, although there are really no flashes zig-zagging like the teeth of a saw as artists generally depict lightning.

"The intense straight flashes are the ones to be feared, and it is a silly person who stands out in the open when such flashes are seen. He invites trouble, but the invitation is not always accepted.

"At this time of the year thunderstorms are frequent and there are a comparatively large number of fatal accidents. One reads in the press dispatches that four men are walking along a New Jersey beach during a thunderstorm. There is a flash of lightning, one man is killed outright, one severely burned, and the others stunned.

"Now, there is no protection for a case like this unless one could carry around with him a metallic cover, well grounded. The first rule is then: Do not stay out on a beach or in a field when dark, heavy clouds are overhead or coming slowly from the west or south. Get under cover if possible. If this is not practicable, lie down. Don't remain standing.

"2. Do not stand under a tree with thick foliage. You are forming a part of the line of discharge, since the body, more particularly the skin, if moist, is a better conductor than the trunk of the tree. More people are killed by lightning in this way than probably any other.

"3. Don't stand in the doorway of a barn or at a window in proximity to a chimney. There are currents of air or winds, and the lightning follows to some extent any draft or column of rising air, especially warm air.

"Don't Laugh at Nervousness."

"4. Don't laugh at anyone's nervousness during a severe thunderstorm. There is a good reason to be nervous. Even if one is in a building that is struck the damage is, in 98 cases out of 100, confined to ripping out plaster or knocking off slates and tearing off any projecting timbers. But there are times when the storm clouds descend to earth and amid darkness the flashes are heavy and numerous. At such times there is danger. It is dangerous to be near a chimney or a tree or a flagpole or a metal clothesline.

"5. Stock should not be tied near a wire fence.

"6. There is no particular sense in going to bed. Standing on glass or rubber or any good insulator, a woolen blanket, for example, will give one a little more security and a great deal more confidence. The probability of a person in an ordinary residence building being struck is very slight.

"7. If you are near a person who has been struck, make every effort to resuscitate him. Only rarely does lightning kill outright. Mostly people are stunned, and all that is needed is a little artificial respiration to restore them to consciousness. Of course, get a doctor quick.

"8. If you are in a trolley car and a flash comes in and burns the fuses with a roar and a blinding flash, sit still. The danger is over, and while you may be frightened you are not likely to be hurt.

"9. If you have a radio, better cut it out during a thunderstorm. The antennae should be grounded direct and all wires, as far as possible, kept outside.

"10. If your house is provided with good lightning rods you need not have much fear. Moreover, dwelling houses in city blocks are practically safe."

LAND GRANTS ISSUED BY
U. S. ON 110,330 PATENTS

Title to 23,022,630 Acres
Transferred by Government
Bureau in Two Years.

During the last two years 110,330 patents have been issued by the Department of the Interior by which the ownership of 23,022,630 acres of public lands has been transferred to homesteaders, according to an announcement made by the acting secretary.

The aggregate of land embraced in this acreage exceeds in area the four states of Maryland, Massachusetts, New Hampshire and Connecticut. It was said. These patents have been issued under the several public land laws, 12,962,064 acres being patented under the homestead law, 4,189,411 acres as stock raising homesteads, 338,792 acres as forest homesteads, 84,274 acres as reclamation homesteads and 215,701 acres as commuted homesteads.

In addition under some form of homestead laws there also were included in the general aggregate 570,750 acres of desert land entries, 92,943 acres of desert land reclaimed under the Carey law, 778,478 acres of Indian patents and 103,017 acres of forest land selections.

Still other patents and conveyances are included as follows: Patented under the swamp land grant, 10,700 acres; total amount conveyed to the 15 states receiving grants of swamp lands, 63,031,160 acres to June 30, 1922. Certified to the states entitled thereto, 1,533,088 acres of indemnity school lands and 267,042 acres granted to states for other purposes.

Conveyed to states under co-operative agreements, 42,982 acres; total amount conveyed under these agreements to the end of the fiscal year 1922, 231,863 acres.

Allowed entries under the Minnesota drainage act for 94,630 acres, making a total of 1,002,240 acres patented under said act since its passage in 1905.

Approved for patent selection in lieu of lands in Indian reservations aggregating 463,044 acres.

15-CT. DOCTOR FEE TOO HIGH

Viennese Too Poor to Afford Services of Physicians.

Hundreds of doctors in Vienna are having hard times these days, keeping themselves and their families alive. The people cannot afford to pay their fees, which are 10,000 crowns or 15 cents, for a visit. Many physicians' families get meat only once a month, and live chiefly on bread and potatoes.

Ninety per cent of the people in Vienna belong to sick benefit associations, and seek the help of an outside doctor only as a last recourse. Furthermore, few foreigners come nowadays to Vienna in quest of medical aid. The home doctors discourage them from taking the journey, representing the local facilities for cures as good as anything to be had in Austria. It is evident the local practitioner does not want fees to slip through his fingers for the benefit of the profession in another country.

GERMAN POSTAL RATES GO UP

Stamp on Letters to U. S. Costs 900 Marks; Phone Tolls Higher.

Postal rates in Germany were tripled July 1. An ordinary letter from Germany to the United States or other foreign country required a 300-mark stamp, but must now have a 900-mark stamp.

Telephone rates will be jumped five times. The post office department has also decided not to accept letters from the post offices under French control in the French occupied area. Retaliation by the French is feared as a result of this action.

NO TIME FOR EXPLANATION

Stranger Had Played the Part of the "Innocent Bystander," and Mike Left Hurriedly.

An accident a few years ago made Mike's use of a cane essential. His business compels him to hang around police headquarters daily, where he gets gift cigars frequently.

On a recent rainy day Mike was awaiting a street car. Directly in front of him was a big, husky fellow. Mike's feet suddenly slipped. His energetic attempt to prevent himself from falling caused his cane to hit the stranger a resounding wallop on the side of the head.

Mike is a fast apologist. The stranger accepted the explanation. Soon both were chatting amicably.

Mike brought him of the pocket full of cigars he had just got from a police friend.

"Drag on one of these," said Mike, proffering a couple.

The stranger accepted the "cigars of peace." He puffed one, continuing the chat.

Suddenly there was a crackling sound, followed by a loud "bang!"

His face and clothing covered with fragments of cigar and ashes, the husky victim started after Mike.

It was no time for explanations. Forgetting his game leg, cane and years of inactivity, Mike went right away from there. What is more, he got away.

Now he is on a still hunt for the cigar-giving policeman—Kansas City Star.

PRIZE WINNERS AT
ZION CHURCH FAIR

Through the generosity of the general public the fair which the Franklin Street A. M. E. Zion Sunday school held last week at the church was a gigantic success. The total amount raised was \$46.61. The expenses were \$17.56, leaving a clear balance of \$29.05. The result of the popularity contest was as follows: Robert Wade, 9 votes; George West, 12; Clarence Vanderzee, 102; Lionel Archer, third, 107; Kenneth La Tour, second, 121; Henry Vanderzee, first, 152. The first prize was an autograph copy of one of Zane Grey's latest books and was donated by Mrs. John B. Hurt.

THE PEOPLE OF THE STATE OF NEW York by the Grace of God, Free and Independent

Know all men by these presents, that I, the undersigned, Clerk of the County of Ulster, at the Surrogate's office, in the City of Kingston, in said County, on the 17th day of September, 1923, at ten o'clock in the forenoon of that day, why the account of proceedings of Margaret J. Rainey, of the Town of Olive, New York, an Administratrix of the goods, chattels and credits which were of said deceased, should not be judicially settled and allowed, upon the petition of said Administratrix.

IN TESTIMONY WHEREOF, we have caused the seal of office of said Surrogate to be hereunto affixed. Witness, John, George F. Kaufman, Surrogate of our said County, at the City of Kingston, the 8th day of August, in the year of our Lord, one thousand nine hundred and twenty-three.

C. K. LOUGHRAN,
Clerk of the Surrogate's Court.

V. B. VAN WAGENEN,
Attorney for Administratrix,

ILLINOIS BASEBALL STARS DO WELL

Cliff Happenny, product of the University of Illinois, who filled the big gap at second base for the White Sox when Eddie Collins was out. He made good with a vengeance. Other Illinoisers are doing well in the majors—Vogel in the Cub outfield and Reiche in the Red Sox garden. Eric Hellstrom, last year's Illinois basketball captain, is going great at Houston, Tex., to which club he was sent by the Cardinals. Don Feden is with Syracuse and Tom McCann with Detroit.

HAVE YANKEES OBTAINED BOLEY?

Boley, brilliant shortstop of the Baltimore team, International league, who, reports say, has been bought by the New York Americans for a whopping big price. His addition to the New York team would, without doubt, strengthen their lineup.

Ejects Two Pitchers

Did you ever hear of one pinch hitter disposing of two pitchers in a ball game?

It does not seem possible, does it?

Looking back over some baseball records we find that in a game played at Boston on June 13, 1916 one pinch hitter, Tom Clarke, went to bat for Toney in the twelfth inning. This put Toney out of the game, and Clarke then hit a vicious liner through the box which Dick Rudolph attempted to stop. Dick did manage to knock down the ball, but it put his right hand out of business and he, too, was compelled to leave the game.

The game in which this play took place was in itself a freak game, for both teams fought bitterly for 16 innings, and neither team was able to score a single tally.

Toney, up to the time he was taken out of the game, had pitched the most superb sort of ball, allowing but two dinky hits in 12 innings and striking out eight men.

Diamond Squibs

Tri-Speakers' phenomenal hitting one-back is the talk of major league circles.

The old-time baseball players used to resent the invasion of the college players.

Bill Rice, a Pacific coast promoter, is taking a team of girl baseball players to the Orient.

The Philadelphia Nationals have signed Carlton Lord, third baseman of the Rockford Three-I club.

The warm weather that a lot of baseball teams were waiting for seems to have done what the pinch hitter usually does.

George Gray, pitching ace of the Henryetta club of the Western association for the past four years, has quit organized baseball.

Manager Branch Rickey of the St. Louis Cardinals, seems to have dug up a real one in John Stuart, the Ohio State university pitcher.

Edwin Wells, left-handed pitcher, has been released by the Detroit Americans to the Birmingham club of the Southern association.

Owens Carroll of Newark, crack pitcher of the Holy Cross team, is nineteen years old. He won 13 out of 15 games for Coach Jack Barry's team this year.

Manager Jimmy Hamilton of the Nashville club has announced the purchase of Pitcher Stubby Mack from the Chicago White Sox. Mack is a right-hander.

Charles Deal, third baseman of the Los Angeles club of the Pacific Coast Baseball league, has been traded to the Vernon club for J. Carlisle Smith, a third sacker.

If Lee Fohl thought Fred Schliebner would boost the morale of his fading Browns, he knows better. Schliebner is a fair first-sacker, but he is a million miles behind George Sizer.

"Pete" McMillan, outfielder, young brother of Norman McMillan of the Boston Americans, who joined the Cleveland Americans after graduating from college, has been unconditionally released.

Al Yap may bring an All-Chinese baseball team from Honolulu to tour this country next summer. Yap gained prominence with the Chinese team which toured the United States half a dozen years ago.

The White Sox have released unconditionally Rocky Snipes, an outfielder recently obtained from University of South Carolina. The lad's big league career consisted of one time at bat as pinch hitter.

A prophet is not without honor save in his own land. In Brooklyn they don't seem to think much of Dutch Reuther, brilliant left hander, but there are several other clubs which would like to have the temperamental one.

Baseball may have its faults, but it expects its players to perform under conditions as they are offered. Baseball players are expected to be stars even though opposition crowds are saying things not soothing to the sensitive.

Leslie Mann, veteran outfielder, passed from the Cardinals to the Reds, the Cincinnati club claiming him when waivers were asked. Mann had sought his release that he might soon take up a position as assistant director of athletics at the University of Indiana.

One of the greatest of the great this year is Adolfo Luque, Cuban, Cincinnati pitcher. Luque has been considered up to this year something of a seven-inning pitcher—good for that number, with a tendency to weaken in the final sessions. Luque is no giant in size.

Of the fighters in the heavyweight class, Jess Willard is the tallest boxer of them all, his height being 6 feet 6 inches and his weight 230 pounds.

Baseball Notes

Few baseball pennants have been won by suggestions from fans.

Herman, playing third base for the Braves, is a Colgate university lad.

Don Flynn, out of the game for several years, is hitting 350 in the Texas league.

Pat Hardgrove, Evansville third baseman, continues his spasms of hard hitting.

Pete Ritchie, catcher, released by Seattle was taken on by the San Francisco club.

So as to cut down to the player-limit, Fort Worth released Pitcher Sam Gray to Beaumont.

George Murchio, former University of California pitcher now with Oakland, seems to be coming fast.

Bill Leard, veteran released as manager of the Winston-Salem team, was taken on by the Danville club.

Joe Lopez, Cuban third baseman, who has been with the Columbus Association team, is now with London in the Mint league.

Bob Connery, business agent of the New York Americans, is said to have reopened negotiations for Pitcher Jake May of the Vernon team.

William Gardner, a southpaw pitcher, added to the roster of the Cleveland Indians, making two Gardner on the team, hails from Haverwood, Pa.

While pitchers with major league reputations are coming into the Southern league only to fail, old Bill Whitaker continues to be an ace, as is Joe Martina.

The New York Giants, winners of the world's baseball championship the last two years, finished in the cellar position three times—in 1900, 1902, and 1913.

Third Baseman Herman Loepp of Muskegon, who broke a leg in a recent game, will be out for the rest of the season, according to reports from the doctors.

Rumors circulated that Fred Clarke had visited California with the idea of looking into Oakland affairs with an idea of purchase of the Oaks franchise were denied by Mr. Clarke.

The veteran Grover Land changed his mind about retiring from baseball and last week signed to play under that other veteran catcher, Dan O'Leary, with Flint in the Mint league.

Arnold Stutz, the Cubs' outfielder, is known to his pals as "Jigger," owing to his success with that implement on the golf links. Stutz is easily the best golfer playing major league baseball.

The Three-I does not seem too fast for recruits from the South Dakota league. Danville took on three players from this defunct circuit—Hart, Griffith and Lee—and all seem to be making good.

Stuffy McInnis rises to remark that he is not thirty-five years old, the age gleaned from the official statistics issued by the Cleveland club. "I began playing when seventeen," he said, "and am only thirty-two."

Bill Speas, the Cedar Rapids manager, may not have his team showing the way to a pennant this year as it did last, but Bill himself has maintained his position as the Mississippi Valley league's premier pitcher.

The Raleigh club of the Piedmont has been sued for \$25,000 damages by the estate of a man named John T. Pope, who fell from the top of the grand stand to his death when a railing gave way as he leaned on it.

Ernie Krueger, catcher of the Indianapolis team, has turned coach and will teach students at McAllister college the fine points of basketball next fall. Bunny Brief has accepted an offer from the same institution as baseball coach.

Home-Run Slugger

"Hack" Miller, huge left fielder of the Chicago Cubs, entered the hall of baseball esteem when he registered two home runs in a recent game. "Hack" came to Chicago with a very fine record, but did not do very much last year. However, this year he is hitting them hard and often.

Australian Lightweight Seeks Go With Leonard

Hugh Dwyer, the lightweight boxing champion of Australia, has reached New York and wants a try at Benny Leonard's crown. Dwyer is twenty-five years of age. He is five and one-half feet tall and weighs about 142 pounds, but says he can easily make 133 pounds for the titleholder of the United States. Dwyer has been fighting six years. He has had 50 fights and 23 knockouts. He beat Sid Godfrey for the Australian title in a 20-round bout last October.

Recruit Richard Reichle Has Best Throwing Arm

They are speaking generously of Richard Reichle, the former midwestern collegian now with the Boston Red Sox. Out in St. Louis critics say that Reichle has one of the best throwing arms unleashed by a recruit in many a long day, while it was for his batting, principally, that the Red Sox signed him.

New Golf Marathon Mark Made by Cleveland Man

A new marathon golf record was recently established at Highland park in Cleveland, O., when Rudolph Supan made 257 holes between 4:20 o'clock in the morning and darkness. He used eight caddies and wore out two pairs of shoes, having traveled between 59 and 60 miles.

"Job's Comforter." The expression is ironically used to denote any person who, under pretense of sympathizing with another's afflictions, attributes them to his misdeeds, and thus aggravates his sorrow. The allusion is to Eliphaz, Balaam and Pharaoh, friends of Job, who visited him in his distress and declared that his misfortunes resulted from his sins and iniquities. "Then Job answered and said, I have heard many such things; miserable comforters are ye all."—Job 16:1, 2.

HIGHEST JUMPING HORSE AT FAIR

One of the features of the rodeo at the Ellenville fair is what is claimed to be the highest jumping horse in the world. Those who saw the horse perform at the fair are not going to challenge this statement for they saw a stunt performed which at first seemed impossible. A prize contest with passengers was driven out on the track in front of the grand stand and after a few preliminary jumping exhibitions the horse jumped over the top of the automobile and passengers with a ease which startled everyone. This high jumping stunt is a part of the free rodeo riding and will show which is being put on each afternoon and evening of the fair.

SURVEYING WOODSTOCK FOR ELECTRIC EXTENSION

For several years the Elster Electric Light, Heat and Power Company in Saugerties has been considering the extension of its lines to Woodstock in order to supply lighting service to residences and business places in that village. To date nothing definite has been accomplished and in order to determine definitely whether or not the proposition is practical, the company is making an actual survey of the section so that the available business may be estimated and an analysis made of the entire scheme. The company is asking prospective consumers to signify whether or not they would take service. If service were made available at the company's expense, and upon the number of prospective consumers will depend the company's decision as to whether or not the extension can be made. If the available business is not sufficient to make the extension carry itself, the company proposes to lay the matter before the people of Woodstock and endeavor to work out with them any other plan which will make the proposed extension feasible. This is the first actual survey which has been made of the territory and the company's decision will rest largely upon the attitude of the people in this territory toward the plan.

FAIR AND SUPPER AT OLD HETLEY CHURCH

The Ladies Aid Society of the Harley Reformed Church will hold a fair and supper at the church grounds on Tuesday, August 28. The fair will be open during the afternoon and evening, and supper will be served at six o'clock, standard time. Old Hetley suppers deserve the fame they have achieved, and few communities can boast of so many good cooks. Practically all of whom belong to the Ladies Aid Society of the Reformed Church.

Dance and Songs at High Falls.

There will be an exhibition dance tonight at the board of water supply hall at High Falls. Bill and Al DeKoskie and Miss Pearl Brooks, who is a member of the Keith circuit, will entertain the guests with the latest songs. Ralfe's orchestra of this city will furnish the music. A bus will leave the central post office at 8 o'clock this evening to convey those desiring to attend from this city free of charge. The bus will return to this city after the dance.

FINANCIAL AND COMMERCIAL

By Telegram to The Freeman.

New York, Aug. 23.—The stock market opened generally heavy today. Trading was fairly active with the majority of issues showing fractional declines. Pierce Arrow preferred moved against the trend, rising 1/2 to 26 1/2. United States Steel at 81 1/2. Bethlehem Steel at 51 1/2 and Baldwin at 12 1/2 were off 1/2. Gulf States Steel yielded 1/2 to 21. Studebaker lost 1/2 to 10 1/2. Kelly Springfield rose 1/2 to 31 1/2. Oil stocks opened lower. Condon lost 1/2 to 21 1/2. Marland 1/2 to 29 1/2. Sinclair 1/2 to 21. Pacific Oil 1/2 to 22 1/2. Producers and Refiners 1/2 to 23 1/2. Railroad stocks were irregular. Rock Island yielding 1/2 to 22 1/2. Pere Marquette up 1/2 to 43 1/2. Union Pacific up 1/2 to 129 1/2 and New York Central off 1/2 to 88.

Profit taking sales which were largely responsible for the reactionary movement in yesterday's late trading, again dominated prices in the forenoon trading. Losses as high as 1 point were registered in leading industrials, but the market subsequently recovered. Most stocks displayed good resistance to selling pressure, excepting the oils in which buying power was greatly impaired, owing to the prevailing unsettlement in the industry.

The market was steady in the afternoon trading, small fractional losses were scored in the majority of the leading issues.

DOLAN & LACKEY STAGE A COMEBACK

And With the Aid of a Number of Imported Players Manage to Play Colonials to a 7-7 Tie at the Fair Grounds on Wednesday Evening—Culliton and Deetjen Hit!

Dolan & Lackey, Inc., staged a comeback at the Fair Grounds on Wednesday and with the aid of a number of star players imported for the occasion managed to play the Colonials to a 7-7 tie.

It was one of those games that Tannersville was very anxious to win so they dispensed with the services of Kid Moore and even Julius himself and called upon Kelly Herbst, from the D. & H. Generals; Tedford, from the Poughkeepsie Red Sox, and Wiler from the Police team. They also had Alexander and Dugan back in their line up.

The game started off like a farce, and it looked as though Deetjen, who was in the box for Tannersville, had gone in the box with nothing but his glove. He was as wild, at the beginning of the game, as a lion running around with his head cut off. The Colonials took advantage of the wildness.

Some Array of Hitters.

Dolan had some array of hitters in his lineup. Dugan, Alexander, Raskin and Herbst is rather a good start for any lineup, but Julius did not stop there for the tail end of his lineup was pretty near as formidable as the beginning.

Furthermore they not only looked like hitters but they did hit. In the eighth innings that Bud pitched—for the game was called at the end of the eighth on account of darkness—this group of baseball players found him for thirteen hits. In fact every man on the Tannersville Club, with the exception of Porter and Deetjen, found Bud for at least one hit. Any team that does that is going some.

Deetjen only allowed the Colonials eight hits but he threw in a couple of walks at different points, which helped the local club out considerably. Then too the Tannersville club threw in a few errors at just the opportune moment—for the Colonials.

For that matter the Colonials also seemed to have a sort of a field day with errors, particularly Swat Russell.

Coyle Knocks a Homer.

With the strong wind that was blowing at the beginning of the game it did not look as though the players on both teams would have much trouble knocking a few four base clouts. However the only slugger to come across with one was Coyle. Bobby knocked one in the third inning with none on the base. Fogarty and McCue had the best batting averages for the day each making two hits out of three times at bat. Freddie Dahn came next with two hits out of four times at bat.

By the way we must not forget that long clout of Fogarty's. Red hit one into center field that came very near hitting the center field fence, in fact it did bounce up against said fence, and Red stretched that hit into a home run. That is everybody thought that it was a home run but Empire Kervan who called Red out for failing to touch second base. It was one of the longest hits ever made on the Fair Grounds.

How They Came In.

Tannersville started the game off with getting three safe hits, one a two bagger, which brought two runs over the rubber.

The Colonials started off also but they started off just a little bit more auspiciously than did Tannersville for they scored six runs thanks to three hits, three errors, and two walks.

After the first inning however Deetjen settled down and did not give the Colonials another chance to score except in the third inning when Coyle knocked his home run over left field fence.

Tannersville also went scoreless until the fourth inning when three hits, one a two bagger, gave the mountaineers two more runs.

In the fifth inning a wild peg by Swat Russell and a hit by McCarthy, after Deetjen had gone to second on the next, gave Tannersville another run and brought the score up to 7-5.

Nothing happened in the sixth or seventh innings but in the eighth inning Tannersville started a rally which tied the score. McCarthy, the first man up, doubled, Dugan singled, scoring McCarthy, Alexander sacrificed Dugan to second, and then a wild peg by McCue put Raskin on first and scored Dugan.

Short, hitting for Russell, was the only Colonial man to get on the base in the last part of the eighth. The game was then called on account of darkness.
